GENERAL PRODUCT INFORMATION

FOOTHILL BEEF MINERAL W/CTC is a complete free-choice mineral-vitamin mix designed specifically for situations where a calcium to phosphorus ratio of 2 to 1 is needed for optimum performance.

FOOTHILL BEEF MINERAL W/CTC contains calcium necessary for strong bone development, maximum milk production, and other body functions. Phosphorus, provided in FOOTHILL BEEF MINERAL W/CTC, is necessary for optimum energy utilization, reproductive performance, and fiber digestion. FOOTHILL BEEF MINERAL W/CTC also contains magnesium and a specially formulated blend of traced minerals including copper, zinc, manganese, selenium, cobalt, and iron. These minerals play vital roles in body metabolism and are necessary to build and maintain an active immune system, healthy tissues, and overall animal health. Several of these trace minerals play key roles in energy and protein metabolism and are essential to optimize efficiency and rate of gain. Vitamins A, D, and E, also included in FOOTHILL BEEF MINERAL W/CTC, play key roles in the maintenance of optimum health, growth, and reproductive performance.

FEEDING DIRECTIONS

Feed this product to cattle according to your nutritionist's directions. For selenium purposes, this product should not exceed 1.02% of total ration.

Feed FOOTHILL BEEF MINERAL W/CTC to beef cattle consuming grass forage. Feed 4 ounces of FOOTHILL BEEF MINERAL W/CTC per head daily to supply 350 mg of chlortetracycline per head per day. Provide a continuous supply of clean, fresh water. Monitor consumption by salt-starved or mineral-starved animals.
