CAUTION: Do not allow horses or other equines access to feed containing Monensin. **Ingestion of Monensin by equines has been fatal.** Monensin-medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. If feed refusals containing Monensin are feed to other groups of cattle, the concentration of Monensin in the refusals and amount of refusals fed could be taken into consideration to prevent Monensin overdosing.

WARNING! DO NOT FEED TO SHEEP. This feed contains added copper at levels that may be toxic to sheep.

WARNING: A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

This feed contains an insect growth regulator, which prevents the development of house, stable, face and horn flies in the manure of treated beef and dairy cattle. Feed this product to beef or dairy cattle for continuous feeding during the fly season at a rate of 3.15 lbs. per one hundred pounds of body weight per day to provide 4.54 mg Diflubenzuron per one hundred pounds of body weight per day (0.10 mg/kg of body weight/day).

REMINDER: Feed is perishable. Store this product in a cool, dry area away from insects. **DO NOT** feed moldy or insect-infested feed.

Net Weight: **50 Pounds (22.7 Kilograms)**
