FEEDING DIRECTIONS

Start the chicks eating early by sprinkling FARMERS BEST CHICK STARTER/GROWER 20 CRUMBLES on paper plates or egg maps 1/3 full of feed. At the end of the first week, begin feeding in chick size feed hoppers. Allow one inch of feeding space per chick. By 3rd week, double available feeding space to 2 inches per chick, and use medium size feeders. Fill feeders only 2/3 full to help prevent waste. Feed FARMERS BEST CHICK STARTER/GROWER CRUMBLES 20 through the 16th week for layers and up to the 22nd week for broilers. Provide fresh, clean water at all times, allowing 1/2 inch per chick. Grit should be made available after the 2nd week. Troubles with chicks are commonly caused by overcrowding, poor sanitation, chilling, overheating or carelessness. Always buy chicks from a reliable hatchery. Brood chicks as far as possible from adult poultry to help prevent disease.

WARNING! DO NOT FEED TO SHEEP. This feed contains added copper at levels that may be toxic to sheep.

REMINDER: Feed is perishable. Store this product in a cool, dry area away from insects. DO NOT feed moldy or insect-infested feed.
